

Viktor

Air purifier

Stadler Form[®]
SWISS DESIGN SINCE 1998

Take a deep breath with VIKTOR!

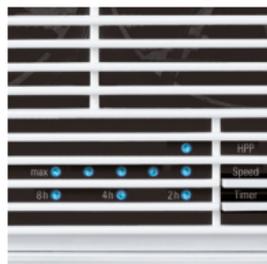

HPP™ filter system: Efficient and washable filter

Whisper quiet operation

5 speed levels, timer, night mode

Fragrance dispenser for the use of essential oils

Air in rooms is often burdened by fine dust, pollen and unpleasant odours as well as viruses and bacteria. But Viktor filters all this through a specially developed HPP Filter System™, thus permitting you to take a deep breath of fresh air! Small and yet great in his own way – despite his compact size, Viktor cleans the air in rooms up to 50 m². The special filter cleanses the air while active carbon eliminates unpleasant odours. And with five performance levels (extremely quiet to powerful) and dimmable night-mode LED control lights, Viktor never robs you of a good night's sleep!
